December 18, 2015

The Honorable Gina McCarthy
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator McCarthy:

I write to request a meeting with Dr. Stephen Frantz and a group of independent scientists regarding the pending Reregistration Eligibility Decision (RED) for the herbicide active ingredient glyphosate and glyphosate-containing formulations. Troubling information has come to light revealing that the February 16, 1994 RED was based on Monsanto and other industry-sponsored data without peer-review. Further, Dr. Frantz expressed great concern that the Environmental Protection Agency (EPA) relies on Monsanto backed data rather than independent, peer-reviewed research.

With the wealth of studies showing the large variety of cancers, organ failures, neurological, environmental harm, and other adverse effects in humans and animals, it would appear that glyphosate and related products will not meet satisfactory regulatory standards and, according to Dr. Frantz, should not be reregistered. I understand there are alternative approaches to weed management that do not poison people, animals, and the environment, and do not contribute to climate change. Such regenerative organic practices need to be encouraged if we are to have a safe and sustainable agricultural future.

Thus, I request a meeting in March or April with the appropriate EPA scientists, Dr. Frantz, and a selective group of independent scientists to discuss and review the health and environmental impact of glyphosate and glyphosate-containing products. Please contact my Legislative Assistant, Megan Price, at megan.price@mail.house.gov, to coordinate the meeting. She will be contacting you during the week of January 25 if we haven't heard back. Thank you for your time.

Sincerely,

Ted. W. Lieu
Member of Congress

Hello Michael,

Anne Overstreet asked me to get this letter completed, since the person to whom it was originally assigned is on sick leave for a couple of weeks. Rick gave her some guidance on it, i.e., to provide some information about the process since the RED and then say we would be happy to meet with him once the comment period is open.

I have attached the incoming letter and the draft response.

Please provide your concurrence and any comments by COB Wednesday, January 13, as we need to get this completed this week.

Thanks,

Claire

Subject: RE: Cong. Lieu Meeting Request

I re-read the incoming from Cong. Lieu's office. Contact information for Dr. Frantz was not provided. Instead, we were asked to coordinate the meeting via the congressman's office. How would you like to proceed? Perhaps we could ask them to identify a few dates/times that would work and then we could check availability on our end.

Rick,
Please tell me when you contact Dr. Frantz and I'll let Lieu's staff know, I told them we would be calling him shortly. The Lieu letter already went out – Andrea and I revised it to say we would be glad to meet and I would be reaching out (which I did). By the way, Tester's office pinged my boss looking for the Bear Spray response, we really need to get that out next week. Thanks for everything and if you watch the ag hearing you can't miss Jack looking quite serious right behind the Administrator. Best,
Sven

Subject: RE: Cong. Lieu meeting Request on Glyphosate - Participants

OPP: Let's meet in the Potomac Yards lobby at 1:30pm. We'll probably need two cabs. We'll likely enter through the Longworth House Office Building and take the tunnel over to the Cannon Building.

The most important thing to keep in mind is that this is a briefing for the Congressman and his staff. While he has invited others to participate, our primary focus should be on the questions from the Member of Congress and his staff. More to come when we meet tomorrow.

Subject: RE: Cong. Lieu meeting Request on Glyphosate - Participants

Glyphosate Team – following introductions, EPA will provide a concise history of the registration review and current status. After that we will respond to questions. There may be a video shown by some of the outside participants. Rick Keigwin will be the lead, all questions and answers should go through him to ensure a single point of contact. I believe Rick will provide additional information about arriving for the briefing. We will plan to leave together at the conclusion of the briefing. In case it comes up, any press or other requests related to the briefing should be directed to me. Please let me know if any questions. Thanks,
Sven

Dr. Frantz—

I am following up on a recent inquiry from Congressman Ted Lieu's office asking for EPA's Office of Pesticide Programs to meet with you and other independent scientists to discuss the ongoing re-evaluation of the pesticide active ingredient, glyphosate. We would welcome the opportunity to meet with you to listen to your concerns. My understanding is that you would like to meet with us in either the March or April timeframe. Please provide me with some possible dates/times that would work best for you and your colleagues. We can either meet via teleconference or, if you will be in the DC area, we could meet with you at our offices in Arlington, Virginia.

I look forward to hearing from you.

Enesta:

here you go-- please use this:

Glyphosate is undergoing registration review, EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory safety standard for registration; that is, the pesticide can perform its intended function with reasonable certainty of no harm to people from residues in food and water and that it will not cause unreasonable adverse effects on the environment when used according to the product label.

EPA has not completed our cancer review. We will look at the work of other governments as well as work by HHS's Agricultural Health Study as we move to make a decision on glyphosate. Our assessment will be peer reviewed and completed by the end of 2016.

Subject: Cong. Lieu Briefing on Glyphosate

Megan – do you have any time today to touch base regarding agenda and logistics for the briefing tomorrow, Tues, June 14 at 2pm? I'm open for a call except at 3:30pm. Thanks,
Sven

Sven-Erik Kaiser

Subject: RE: glyphosate statements

Andrea – thanks

Rick – are you okay with this desk statement? If yes I'll provide to Enesta from the press office who will accompanying us for the briefing with Cong. Lieu. I want to make sure anything she uses is consistent with what you say. Thanks, Sven

Subject: RE: Cong. Lieu Briefing on Glyphosate

Hi, would it be possible to get a list of all of the EPA attendees at the meeting?

Thank you,

Megan
